

NCA 5.0 – THE POKER ROCKET **PERFORMANCE CATAMARAN**

The **NCA 5.0** combines simplicity, speed, and modern high-performance sailing in a proven 16ft platform. Designed for sailors who want serious capability without unnecessary complexity, it delivers strong racing performance while still being easy to sail, launch, and enjoy recreationally. 🏠 ⚓

For those who like to keep high-performance sailing simple and hassle-free, the 5.0 is hard to beat.

Boomless, limitless — the NCA 5.0 is a true multi-role catamaran, capable of racing at a high level or cruising comfortably with friends on a relaxed afternoon sail. 🌊

Often referred to as a “**pocket rocket**,” it delivers surprising performance from a simple, clean, and efficient design. 🚀

Its **boardless hull design** makes launching, retrieving, and beach sailing significantly easier, reducing complexity and improving usability in real-world conditions.

With refined hull shaping, the 5.0 offers strong upwind performance, smooth tacking, and stable tracking, while remaining responsive and forgiving across a wide range of conditions.

The boomless rig and modern sail plan provide a clean, simple setup that balances performance with ease of use — making it one of the most versatile 16ft catamarans available.

💰 **Australian Built • NCA Designed • Backed by a 2-Year Warranty AU**

FEATURES – SIMPLE, FAST & HIGH PERFORMANCE

- ◆ Moulded white foam sandwich hulls — lightweight strength and long-term durability
- ◆ Non-skid decks — safer movement and improved grip on deck
- ◆ Mesh trampoline — durable, quick-draining, and low maintenance
- ◆ Round cross beams — rigid platform for strength and stability
- ◆ Anodised spars — corrosion resistance and long service life
- ◆ Coated shrouds / rolled swage fittings — reduced wear and improved rig longevity
- ◆ Double trapeze system  — full crew performance and racing control
- ◆ Adjustable kick-up rudders — safe beaching and easy launching

- ◆ Positive Ackerman steering system — precise, predictable handling under load
- ◆ Carbon-reinforced rudders — increased strength and durability for racing use
- ◆ Captive mast ball system — safer and easier mast raising and lowering
- ◆ Internal diamond wire adjustment system — precise rig tuning and easy setup control
- ◆ Adjustable wing-shaped spreaders — improved sail shape and rig stability
- ◆ **Exclusive bridle foil system** — improved jib sheeting angle for more power with reduced heeling
- ◆ Pentax boomless square-top mainsail  — modern high-performance sail design for power and efficiency
- ◆ Racing battens — improved sail shape and speed across all conditions
- ◆ Vertical cut Dacron racing jib — durable and reliable performance sail
- ◆ RCB traveller car — precise mainsail control and trimming
- ◆ Barber hauler system — improved jib sheeting angles for performance tuning
- ◆ 10:1 mainsheet system — strong, smooth sail control under load
- ◆ 3:1 jib luff system — fine adjustment for sail shape and efficiency

OPTIONAL PERFORMANCE PACKAGE

- ◆ Spinnaker system — enhanced downwind speed and racing performance
- ◆ Mast spanner system — optional rig support and tuning tool for setup and transport

SPECIFICATIONS

- ✚ Length: 5.1 m
- ✚ Width: 2.44 m
- ✚ Weight: 130 kg
- ✚ Sail Area: 17.85 m²
- ✚ Trapeze: Double
- ✚ Construction: Foam sandwich vinylester

SUMMARY

The **NCA 5.0** is a fast, simple, and highly capable performance catamaran designed for versatility. With modern rigging, strong construction, and an easy-to-handle hull design, it delivers excellent racing performance while remaining accessible for recreational sailing.

All this from \$20990 (Boat only)
